

Welcome from the President!

Welcome to the Spirit Mountain Amateur Radio Club and thank you for viewing our seventh monthly newsletter! October was a great month for productivity and learning new things about ham radio.

The annual club QSL card design contest is now closed! Voting will be open from 2pm-8pm MST on November 4th, 2023, via a link emailed to all club members. Additionally, the designs will be shown during the club meeting. Those who submitted designs cannot vote for your own design, that way we can keep the voting fair. We look forward to seeing the outcome of the voting and what designs you all choose! Thank you all for participating. The results of voting will be sent to everyone via email, as well as through Facebook. If there is a tie, a second form will be created to make a tie breaker. We're excited to see what comes from this!

We're still awaiting a final repeater frequency coordination from the state of Arizona. It's been a long process and we're working closely with our frequency coordinating body to get this done as soon as possible. All club members will be notified via email, as well as through Facebook, when we have received our frequency coordination, and that the repeater is online at that time. We look forward to getting everything up and running!

Do you have questions, ideas, thoughts or concerns? Email me at President@SMARC.Club and we can discuss it. Thanks for reading, and I look forward to seeing everyone in our meeting, and in the coming events!

Stay safe, and 73!
 Paul Jameson, WB7N
 SMARC Club President

To: "Spirit Mountain Amateur Radio Club Paul Jameson, WB7N" <president@smarc.club>
Subject: 2023 Superstition ARC Superfest

The Superstition Amateur Radio Club cordially invites your club to our annual Superstition SuperFest

held at Mesa Community College Southwest Parking Lot
1833 W. Southern Ave. Mesa, AZ 85202
on Saturday, December 2nd from 7:00am to 4:00pm.

As we have done in past years, we are offering all amateur radio clubs space on our "Club Row" to set up a booth. We'll need to reserve a spot for your organization on our "Club Row", so please send a reservation request to Chairman@superstitionsuperfest.org if you are going to attend.

The following policies apply to clubs represented at the "SuperFest".

1. Organizations identifying themselves as an Amateur Radio Club are allotted free admission for 2 members and will be provided two spaces to set up a club booth on Club Row.
2. Clubs are permitted to sell club branded items such as hats, cups, t-shirts and memberships.
3. Club booth participants who receive free admission are not eligible for the door prize drawing.
4. Club booth participants may not sell items other than those which are club branded. If you are selling radio or electronic equipment, please do that in the Vendor/Tailgate area.
5. Electric power, chairs, tables and shelter are the responsibility of each participating club.
6. Clubs may start their setup beginning at 6:00am on Saturday December 2nd. Tear down must be completed before 4:00pm on Saturday December 2nd.

We hope to see your club represented at the SuperFest, so let us know if you'll be there. Please send reservations to: Chairman@superstitionsuperfest.org.

We've got some great prizes to raffle this year including as Grand Prizes an Elecraft KX-2 Shack-in-a Box, Super Whip MP1LXHR 4-10 Antenna and a Bioenno 60W Foldable Solar Panel with 160W Power Pak.

Hourly "Mystery Box" Prize Raffles- Raffles will be held at 8am, 9am, 10am, 11am and 12pm

You definitely don't want to miss this year's SuperFest.

Email any questions to Chairman@superstitionsuperfest.org or superfest@superstitionarc.org and please feel free to distribute the attached SuperFest Information flyers to any interested individuals in your organizations.

Thank you and 73,

Spirit Mountain Amateur Radio Club KS7MC

Ham radio for newbies.

THE HAM BADGERS

zoom Video Club Meetings

The SMARC Club has a monthly online ZOOM meeting on the first Saturday of each month at 2pm MST. The next one is August 5. If you're new to online video meetings, it's simple, and fun. You need just a microphone and web cam. Most laptop computers already have the mic and cam built in. If you need a camera/microphone combo unit for your desktop computer search Amazon and you'll find a nice unit for just \$25-30+.

You can install the software on your phone but you and the others in the video meeting will all have a better experience if you use your desktop or laptop computer on your home or business Internet connection. There's a meeting client to download before your first online meeting. Use this re-direct link: <http://tiny.cc/zoomclient>.

A suggestion is to add your callsign to your display name, so it'll be displayed to everyone else during the video meeting. You do this in your account settings before entering the meeting. Give yourself extra time before the meeting to prepare.

Contact Mark Melvin AE6MP at mightypilot@gmail.com for help getting set up.

From time to time the meeting schedule may need to be adjusted to accommodate member's schedules. The change will be announced on our group Facebook page.
